

Our annual legislation event took place at the Best Western Valley Hotel in Coalbrookdale and presentations were given by the Environment Agency & BESST Chair, Andy Whyte and hosted by Paul Nelms, Epwin Group.

The Environment Agency invited delegates to participate in a workshop session on Pollution Prevention control, working through different scenarios of how to resolve pollution incidents.

Andy Whyte, on behalf of Green Shropshireexchange, talked about future needs for Electric Vehicle Charging to be better developed in Shropshire with the advent of more electric vehicles. Green Shropshireexchange are launching a survey to understand the need for charging points. Follow this link to participate <https://www.surveymonkey.co.uk/r/NPGJRVH>.

Telford Business Board have identified the need to hold Sector Hub meetings through it's sector Champions and BESST held the first of these at this event. A number of set questions were put to businesses at the meeting, and the results of this will be analysed

For further information on any of the environmental topics discussed please email telfordbesst@gmail.com or call us on 07758 603064
